

# Calculate a PAYCHECK FOR YOURSELF

while investing in your business

Business owners take on a number of roles for their business, including decision maker on their own compensation. It can be difficult to find the right balance.

## LET'S LOOK AT AN EXAMPLE

if your market rate is \$45,000 per year and inflation is 1.7%.

For specific advice on how you can find the right balance between business and personal finances, consult a financial advisor.
